

- Professional application engineers
- Sensing, inspection & vision labs
- Extensive customer tailored inventory
- Custom subassemblies
- Value added engineering
- Customized Bosch framing systems

**Animatics**

Smartmotor™ Integrated Servo Motor Systems sized from NEMA 17 to NEMA 56. Servo Motor, amplifier, feedback, I/O control & communication in one compact package. Fast, simple and cost effective to install.

**Bosch Rexroth Corporation**

Worldwide leader in Aluminum Structural Framing Systems. Ideal for ergonomic workstations, machine safeguarding, machine framing & bases, parts handling carts and hundreds of assembly and cleanroom applications

**Cimrex/EXTER HMI**

Operator Interface Flat panel Touchscreens, ETHERNET connectivity, Compact OEM Interfaces with software drivers for all major brands.

**Escort Memory Systems**

RFID Radio Frequency Identification Systems, including Antennas, Tags and Network Interface Modules.

**Exergen**

Non-Contact Infrared Temperature Sensors and Hand-Held Scanners.

**FLIR**

Thermal Security Cameras: Pan/Tilt/Zoom Cameras, Fixed Cameras and Handheld Cameras

**Festo Corporation**

Worldwide leader in pneumatic automation solutions, Pneumatic actuators & cylinders, grippers & vacuum products, Precision linear actuators & electronic motion control, Valves & valve manifolds for all sizes & applications, Filters, regulators, dryers, on-off valves, Fittings, connectors, tubing & accessories, Servo, stepper, logic, I/O control & operator interfaces.

**GCX Instrument Mounting Systems**

GCX offers mounting solutions that seamlessly integrate many IT related products into a space saving, ergonomic and efficient environment. Unlike other equipment mounting companies, we have field-tested, proven components that help create a cost-effective and rapidly configured solution for your specific application.

**Intelligent Actuator (IAI)**

Robot Systems, X,Y,Z Servo Positioners, Table Top Systems, Robo Cylinders, SCARA Robots.

**Matrox Imaging**

Smart Cameras, Industrial Cameras, Imaging Computers, Frame Grabbers & Vision Processors

**Moxa Technologies**

World leader in Industrial Ethernet connectivity. NPort Serial Device Servers provide easy device networking solutions for managing serial devices over an IP-based Ethernet network. Ethernet Switches, Serial to Ethernet, Wireless Ethernet, Video over IP & more.

**NERLITE (a division of Microscan)**

Known throughout the Machine Vision industry as a leader in lighting products and solutions, NERLITE provides off-the-shelf as well as custom OEM solutions.

**Omron**

Sensing, Laser Measurement, product inspection & Vision Solutions. Logic & Motion Control with Touchscreen interfaces & Ethernet communications. Distributed I/O products with Fieldbus connectivity including DeviceNet. Data tracking with RF ID & Barcode.

**Oriental Motor**

Stepper Motors and Drivers, AlphaStep Closed Loop Positioning Systems, NanoStep Microstepping System, Gear Motors, Brushless DC Motors, AC Motors, Speed Control Motors, Cooling Fans, EZ Limo Stepper Actuator Family

**Patlite**

The World Leader in Signal Towers, Rotating Beacons, Audible Alarms and Voice Message Systems

**Omron Scientific Technologies, Inc.**

Safety Light Curtains, Safety Interlock Switches, Perimeter Guards, Safety Floor Mats, Level Sensors, Ultrasonic Sensors, plus Specialty Sensors - Pressure, Flow and Displacement.

**Yaskawa**

Servo Motors and Amplifiers, Motion Controllers, Gearheads, Linear Motors and Software Solutions for Simple Indexing to Multi-Axis Motion Control with Network Communications and Machine Control.
